Brand Statement

A beautiful landscape is a collaboration of nature and functionality.

It should be tended to and nurtured with respect to the environment, sustainability and its users.

OUR MISSION

We are committed to always supporting our clients to deliver bespoke solutions, always at high standards, and in all things: people, products and projects we focus on quality, trust and wellbeing.

At Oasis Hills our goal is to maintain your landscape with these core principles at the forefront of our operations.

OUR VISION

We understand the unique environment of this region, which grass' and plants prosper and how to care for them.

In all things and in all ways our vision is to Thrive & Grow.

Services

We've brought together some of the regions leading specialists in the field of landscape as well as irrigation construction and maintenance to provide a quality driven, professional service.

WE DELIVER:

- *Landscape Design*
- *Landscape Construction*
- *Landscape Maintenance*
- *Sports Turf*
- *Golf Course Construction and Maintenance*
- *Living Walls*
- *Irrigation and Drainage*
- *Landscape Machinery and Products*

OASIS HILLS
Landscape Services

Sectors

HOSPITALITY - Our team have been directly responsible for the landscapes surrounding some of Dubai's premier hotel and resorts. We understand the attention to detail required, and skillfully conduct the daily operations with minimal impact on the guests.

COMMUNITIES - We understand that within a master community a combination of large open green spaces and streetscapes, requires a more mechanized approach. We have partnered with a specialist machinery supplier to ensure we always have the correct equipment on hand, for efficiency of operations.

TURF - We pride ourselves on our ability to delivery high quality natural sports turf and golf course surfaces. Our turf specialists understand the level of preparation and planning required to meet international standards.

- **PRIVATE RESIDENTIAL** - Our services are flexible, discrete, responsive, and bespoke to the individual requirements of the property owner.

OASIS HILLS
Landscape Services

BEST PRACTICE

Quality - We follow a bespoke quality audit process based on international landscape practices. This is the benchmark for all our projects.

Sustainability - We envision an environment where native and arid adaptive species are embraced, water resources are protected, and green waste is recycled. We use naturally sourced pesticides and fertilisers. Our machinery and equipment utilise lithium powered, low sulphur diesel or biofuels.

Health and Safety - All of our team members are appropriately trained to industry COSHH standards. Toolbox talks are conducted on a weekly basis and each employee has first aid training.

Training and Development - Our combined leadership team has over 65 years of industry experience. We ensure that all our employees benefit from this knowledge and background. Our staff also receive training in appropriate etiquette for their working environments.

OASIS HILLS
Landscape Services

Nestled at the intersection of artistry and nature, Oasis Hills emerges as a testament to the sublime. Our passion lies in crafting landscapes that transcend the ordinary, weaving a tapestry of serenity and beauty that graces hotels, resorts, vibrant communities, luxuriant turfs, and the intimate retreats of private residences throughout the enchanting landscapes of the GCC countries. With each project, we sculpt a sanctuary where every leaf, flower, and carefully curated element serves as a brushstroke, painting a portrait of tranquility that seamlessly integrates with the distinctive surroundings of the Gulf region. At Oasis Hills, we not only provide landscape services but curate experiences where the essence of nature meets the artistry of design, creating timeless havens that resonate with both heart and soul.

Case study for Sofitel Palm Jumeirah

Premises

Sofitel Palm Jumeirah is a 5-star luxury resort with extensive Polynesian/tropical landscape both exterior and interior

To the exterior, the property has approximately 9.6 hectares of high density planted gardens, with lawns, shrubs, seasonal flowers, trees and palms

Inside the hotel is one of the largest interior vertical gardens with 24 separate elements.

OASIS HILLS
Landscape Services

Resources

20 staff including two interior technicians ,one senior site supervisor two machine operators, two irrigation technicians providing 24/7 cover, 13 gardeners. Operations are delivered using one tractor with turf tyres, two utility vehicles, 20 lithium powered battery equipment (hedge trimmer. Strig trimmer, blowers, pedestrian mower, extension hedge trimmer and extension chainsaw). One ride on mulching deck mower and one cylinder mower, as well as specialist turf maintenance equipment. The team are monitored daily by the client, with a KPI assessment carried out on a monthly basis, with a minimum weighted score of 90%.

Achievements

The usual volume of green waste remover for such a property is approximately 20 cubic meters per week. During the first 3 months of our contract, we averaged remover of 10 cubic metres per day in response to the overgrown condition of the property on take-over. The landscape is now under control whereby routine PPM can be resumed.

On request we were asked to re-design and renovate the garden around the Royal Villa the most expensive suite on the property.

“The difference in the grounds maintenance since Oasis Hills started working with us has been incredible. Our Landscape looks authentic and well maintained, their operations are discrete and responsible” Waleed Samuel, Resident Engineer, Sofitel.
